**Subject: Invitation Letter for VINCI 2025 – Linz, Austria**

Dear Liu Shuai,

We are delighted to confirm your participation in the 18th International Symposium on Visual Information Communication and Interaction (VINCI 2025), to be held 1–3 December 2025 on the campus of Johannes Kepler University Linz, Austria. VINCI is the premier venue for researchers and practitioners to present and discuss the latest advances in visual communication theory, design, and application.

To support your travel funding application, we confirm that your submission #138 *Prosomoíosi (Simulation)* has been accepted for presentation during VINCI 2025 from 1–3 December 2025 as part of the Art/Media Gallery.

In today's digital era, visual information—spanning information visualization, graphical interfaces, visual analytics, and visual languages—is indispensable for rapid comprehension and interaction, both online and off. VINCI 2025 will feature keynote addresses by leading experts, rigorously peer-reviewed technical and art papers, and curated art and media gallery works. Together, these contributions investigate how visual communication—through graphics, signs, and emerging technologies such as artificial intelligence and extended reality—connects people across art, media, and cultures.

Please note that VINCI 2025 is unable to provide financial support for travel and visa-related expenses. We trust this letter will facilitate your travel arrangements and look forward to welcoming you to Linz.

Yours sincerely,

**Prof. Günter Wallner**  
Johannes Kepler University, Austria

**Prof. James She**  
The Hong Kong University of Science and Technology (Guangzhou), China

**General Co-Chairs, VINCI 2025**
